The following is a new rejection of the claims:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 14-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 14 are indefinite in that the metes and bounds of the claims are indefinite. Members of the Markush Group overlap in that all may be pharmaceuticals, an adjuvant is an immunomodulator, several may be antigens, transcription or translation mediators may be enzymes, several may be polypeptides. In claim 14,
